

This is a Certified "High-Traction" product by the National Floor Safety Institute (NFSI).

PREVENT THIS FROM

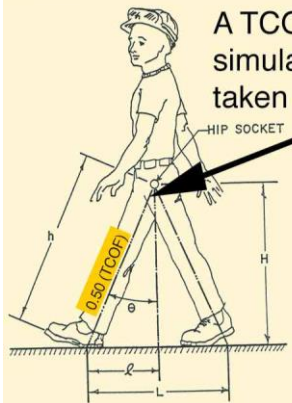

HAPPENING TO YOU!

The NFSI has spent more than fifteen years researching how to test for slip resistance. This research has helped develop the most comprehensive evaluation process to date.

This Floor Mat backing has been evaluated by the NFSI for Transitional Coefficient of Friction (TCOF) per the NFSI 101-C testing method.

LOOK FOR THE LABEL

A TCOF of 0.50 simulates the average stride taken while walking.

This floor mat will not slide when walked on by the average person.

**Are Your Mats NFSI Certified?
All of Ours Are**
